ENERGY EFFICIENT HEATING & COOLING RESIDENTIAL REBATES

Effective 1/1/2016 – 12/31/2016

*Central Air Conditioning Units &
Furnance with Electronically Commutated Motor (ECM)*

Eligibility

1. Rebate applicant must be an electric customer of Kasson Public Utilities
2. Eligible equipment must be connected to an electric service billed under a residential rate class by The Utility.
3. This program is applicable only to equipment that meets the detailed equipment specifications and requirements described in this application. The Utility will determine, in its discretion, whether such specifications and requirements are satisfied.

Terms & Conditions

1. Incentive Offer: A signed application and itemized invoices for materials and labor must be submitted to the participating utility at the address indicated by January 31st following the calendar year the unit was purchased. Please keep a copy for your records.
2. Proof of Purchase: This application must have complete information and be submitted with an invoice(s) itemizing the new equipment purchased and labor costs. **The invoice(s) must indicate date of purchase, size, type, make, model, and total project cost. The AHRI Certificate of Product Rating(s) must also be provided. If the AHRI Certificate of Product Rating(s) is not available, the manufacturer (OEM) specification sheet must be included.**
3. Compliance:
 - a) All projects must comply with federal, state, and local codes.
 - b) All equipment must be new or retrofitted with new components per the program specifications. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed and properly disposed of.
 - c) Equipment must meet specification requirements and be purchased, installed and operating prior to submitting an incentive application.
 - d) Customers may only receive one incentive per piece of qualifying equipment.
 - e) All terms and conditions of this application must be satisfied by the customer.
4. Payment: Once completed paperwork is submitted, incentive payments are usually made within 6-8 weeks. Incomplete applications will either delay payments or be denied. The Utility reserves the right to refuse payment and participation if the customer or the customer's contractor violates program rules and procedures.
5. Inspection: The Utility may conduct an inspection of the customer's facility to survey any installed projects. All projects exceeding \$3,000 of incentives will be inspected prior to incentive payment. The Utility may inspect customer records relating to incentives sought by the customer.
6. Information Sharing: The Utility reserves the right to publicize your participation in this program, unless you specifically request otherwise in writing. Information contained in this application may be shared with state boards, commissions, departments, and other Savings Plus participating utilities.
7. Program Discretion: Incentives are available on a first-come, first-served basis. This program and its incentive amounts are subject to change or termination without notice at the discretion of The Utility. Neither pre-approval of a project, nor any other action by The Utility, will entitle a customer to an incentive payment until the application is finally approved by The Utility.
8. Logo Use: Customers or trade allies may not use the name or logo of Savings Plus, The Utility, or any other participating utility in any marketing, advertising, or promotional material without permission.
9. Disclaimers: The Utility
 - a) does not endorse any particular manufacturer, product, labor or system design by offering these programs;
 - b) will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;
 - c) does not expressly or implicitly warrant the installation or performance of installed equipment or any contractor's quality of work (contact the equipment manufacturer or contractor for warranties);
 - d) is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
 - e) is not liable for any damage, injury, or loss of life arising from or relating to the removal, installation, or operation of any equipment, or any other action taken by the customer or The Utility, in connection with a project undertaken by the customer under the programs described in this application;
 - f) does not guarantee that a specific level of energy or cost savings will result from the implementation of energy efficiency measures or the use of products funded under this program.

On December 11, 2013 the City of Kasson City Council approved Resolution 12.9-13 mandating installation of Load Management Controllers on new houses with Central Air Conditioner Units and on Replacement Central Air Conditioner Units permitted/installed on or after January 1, 2014. The City of Kasson has always and will continue to pay for the installation of the Load Management Controller. Kasson Public Utility members with Load Management Controllers will receive a 10% discount for four (4) billing periods generally designated as May 16 through September 15 of each year. This is for residential units only at this time.

A Mechanical Permit is **REQUIRED** for Fireplaces, Gas Lines, Boilers, Water Heaters, Pipelines, **Furnaces** and **Central Air Conditioners**.
